

INTRODUCTION

- * The GIFT of God ... The Incarnation ... and everything else that was attached to it!
- * Though it came as a surprise to many, it shouldn't have. God had been dropping hints for 4,000 years!
- * Today, we will begin looking at that plan ... Focusing on the Christ ... beginning initially by looking at the shadow of the Christ.
 - Lord willing, we will be considering approximately 20 portents, types and indicators of Christ's coming
 - considering their practical and prophetical applications
- * But first, let's consider the thesis for this study ... that God did, in fact, have a plan ... that Christ's coming was not happenstance ... This is important because, as we will see, God makes the same promise regarding Christ's second coming!
